ALL ON MOBILE HELPS COMPANIES  
MANAGING FLEETS OF VEHICLES TO  
OVERCOME THEIR CHALLENGES

OUR  
SOLUTION

Fleet vehicle administration is arguably one of the most demanding areas of mobile workforce management. All On Mobile helps companies managing fleets of vehicles to overcome their specific challenges associated with the administration of rolling stock and drivers.

All On Mobile's solution for fleet management streamlines time consuming manual processes, creating greater efficiency and productivity while supporting compliance. It allows drivers to perform daily Vehicle Checks as well as accessing other useful forms including Bump Cards and Drivers Hours.

Using All On Mobile as your mobile fleet management solution brings many benefits, including:

 <p><b>WORKFLOWS</b></p> <p>Improves workflows through the Rules Engine e.g. automatic alerting, creation of new jobs</p>	 <p><b>REPORTING</b></p> <p>Powerful reporting dashboard functionality against drivers, vehicles, time, location, users etc.</p>	 <p><b>INTEGRATION</b></p> <p>Open API for integration into existing Fleet Management solutions (create a mobile front-end for your existing back office system)</p>
 <p><b>TELEMATICS</b></p> <p>AOM partner with TomTom and Masternaut to offer integrated telematics and job management solutions</p>	 <p><b>COMPLIANCE</b></p> <p>Improves compliance by ensuring necessary forms are completed when required e.g. Vehicle Checks</p>	 <p><b>SUPPORT</b></p> <p>AOM provide support and implementation services to ensure accurate deployment</p>

## OUR WORK

All On Mobile were approached by one of the UK's largest construction firms to enable them to manage their fleet of over 2000 vehicles. They use All On Mobile for:

- Daily driver walkaround checks
- Accident Reporting
- Drivers Hours

One of their key goals was to achieve Earned Recognition (an initiative set up by DVSA to allow Fleet Operators to regulate themselves and provide relevant information to the DVSA). They were able to do so by introducing All On Mobile, which helped them achieve the compliance requirements.

Additionally, All On Mobile allowed that company to decrease the frequency at which their vehicles were stopped by the DVSA. This alone helped them to avoid losing an average of £4,000 per stopped vehicle per day.

- ✓ Reduce vehicle down-time
- ✓ Increase efficiency of contracts
- ✓ Improve compliance

## DVSA Earned Recognition

All On Mobile can help your business to achieve DVSA Earned Recognition. Our team of consultants can advise on the deployment and on-going processes, while our solutions can ensure that you have the right information easily accessible at all times.
